WILDFIRE

TEP COMPACT

TEP Compact is an innovative, flexible and dynamic **online training programme**. The theory is founded on real situations explained by experts currently active in different regions and services around the world. It offers a global perspective based on lessons learnt and many years of experience to reinforce basic knowledge, combining training and experience into know-how to enable a well-founded choice of more efficient and safer manoeuvres.

TEP Compact is an introduction to the process of obtaining a global view of wildfires to generate reasoning for an efficient and safe operation response through tactical analyses.

MODULES

MODULE 1	Duration	Classes
I have a problem called wildland fire	1,5 h.	6
MODULE 2		
Understanding the fire spread, from the flames to fuels.	3,5 h.	11
MODULE 3		
Introduction to the toolbox: operations	7,5 h.	16
MODULE 4		
From operations to tactical planning	2 h.	4
MODULE 5		
Resolution of real case scenarios	3 h.	4
MODULE 6		
Tactics and strategies in wildland Urban Interface	2,5 h.	4
Total	20 h.	45 classes

OBJECTIVES

- ✔ Strengthen comprehension of different scenarios through tactical analysis of wildfires.
- ✔ Introduction to “toolbox” concept and strengthen the know-how to select the most efficient and safe operations accordingly.
- ✔ Strengthen reading of wildfires and operation reasoning.
- ✔ Analysis of real-life case scenarios to show the tactical architecture employed for successful resolution.
